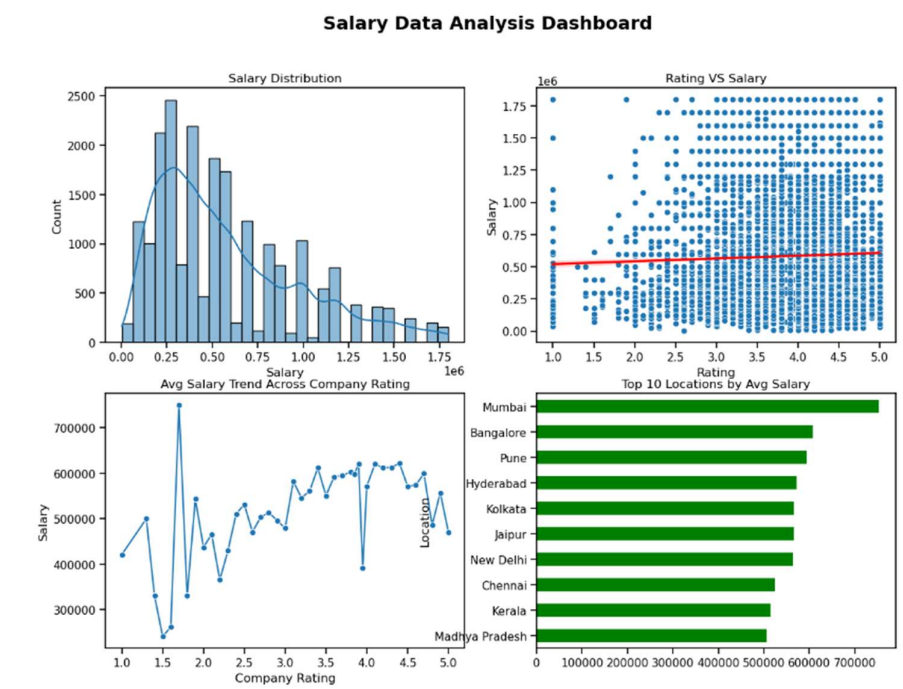
Mini Dashboard



Business Recommendations

1. **Invest in Database & SDE teams** — These skills drive the most value; well-paid tech teams build better products and grow the business faster.
2. **Open your next office in Mumbai** — Top talent concentrates there, giving you access to the best people in the market.
3. **Replace trainees with full-time hires for key roles** — Full-timers are more committed, more skilled, and directly impact company growth.
4. **Don't chase 5-star rated companies for partnerships** — Mid-rated companies (3–4.5) offer better value and are more open to collaboration.
5. **Hire Android & SDE developers now while the market is competitive** — Supply is high, so you can get great talent at reasonable cost before demand picks up.
6. **Focus your tech hiring on Software Development Engineers** — With 7,500+ professionals in the market, scaling your tech team is very achievable right now.
7. **Pay your people fairly based on their city** — Underpaying Mumbai or Bangalore employees means losing them to competitors quickly.
